Re: Draft Source Control Alternatives Evaluation Work Plan  
Siltronic Corporation  
7200 NW Front Avenue, Portland, OR  
ECSI #183

Dear Dana:

Maul Foster & Alongi, Inc. (MFA) has prepared the attached Draft Source Control Alternatives Evaluation Work Plan (the work plan) in accordance with the requirements of the *Order Requiring Remedial Investigation (RI) and Source Control Measures* (the Order), Oregon Department of Environmental Quality (DEQ) No. VC-NWR-03-16, issued to Siltronic Corporation (Siltronic) on February 9, 2004.

The work plan is consistent with the general approach discussed and agreed to during the meeting between Siltronic, DEQ, and the US Environmental Protection Agency (USEPA) on November 10, 2005. Siltronic's approach as identified in the work plan is based on an aggressive but realistic schedule, which is contingent upon a timely review cycle with DEQ and USEPA. Siltronic requests that DEQ provide comments on the work plan so that MFA can finalize the work plan by the end of February, 2006. MFA proposes that DEQ, USEPA, and Siltronic meet during the week of January 30<sup>th</sup> or February 6<sup>th</sup> to discuss any comments either agency may have, and the schedule for implementation.

One of us will contact you within a few days to schedule a meeting.

Sincerely,

Maul Foster & Alongi, Inc.
